

CAWEW

California Women Empowering Women

Please Help

California Women Empowering Women provides desperately needed resources and funding to accomplish a dual-mission: first, equip SARTs (Sexual Assault Response Teams) with the equipment and resources they need to continue their great work with survivors of sexual assault; second, we raise funding and awareness to clear the backlog of untested DNA evidence kits from unsolved sexual assaults in California, thereby bringing rapists to justice and providing some closure for survivors and their families.
